No. F5 (938)/DoIT/Tech/16/I/68970/2017   Dated : 16/05/17

CIRCULAR

It is enjoined upon all to ensure procedural simplication from the point of hassle free service delivery to common man. As a step towards this, in accordance with budget announcement of Hon'ble Chief Minister, all the departments should curtail requirements of supporting documents asked along with application forms of various services, as in most cases validations can be taken care of through available data sets.

A list of parameters which should be validated through the data sets available in State Data Center with the help of Department of Information Technology & Communication is available at Annexure-1. This list will keep increasing over time. Therefore to begin with, all departments shall amend their procedural guidelines to dispense with a necessity of supporting documents in relation to mentioned items in annexure and instead replace by online validation. Also, in line with amendments in the procedural guidelines, the application software may be changed to take care of the aspect.

For the purpose of amendments in procedurs and application software, support of Department of IT&C can be taken. The process may necessarily be completed by 30th June 2017.
